PERSONAL PROJECTS

E-commerce web app

- This e-commerce website is build with ReactJS for frontend with Tailwind CSS for responsive design. It offers a smooth shopping experience with product browsing, cart management and secure checkout.

Food Delivery web app

- This project is a comprehensive full-stack food delivery application, built with Vue.js and React for the frontend, Node.js for the backend, and MongoDB for the database. It offers a seamless user experience, enabling customers to browse, order, and track their favorite meals online

Notes & password manager mobile app

- The app offers a user-friendly interface for organizing notes & passwords protection, and seamless synchronization across devices, with authentication.
